WORKINGMEN'S PLATFORM.

RESOLVED, 1st That self-preservation is the first law of nature, the principle applies to governments as to individuals. 2d That the extension of the Chinese in the United States is detrimental and injurious to the present and future welfare of our country, and therefore the people demand the abrogation of that part of the Burlingame treaty permitting immigration of the Chinese. 3d That the Chinese be taxed a per capita tax of one hundred dollars per annum for the purpose of creating a sinking fund to prosecute and detain Chinese suits at law. 4th That no Chinese shall be employed for work upon any public works, and that no Chinese shall be employed by any public officer in, around or upon any public building. 5th That the Workingmen's party is unqualifiedly opposed to all land monopolies. 6th That the government shall hold of land to any corporate body, associations or individuals is wrong in principle and injurious and detrimental to the future growth and prosperity of our country. THE DAILY JOURNAL

the best daily paper published on the line of the Central Pacific Railroad, east of Sacramento, having a general circulation throughout the State, it is especially valuable as an advertising medium.

THE DAILY AND WEEKLY JOURNAL have a combined circulation larger than that of any interior journal of Nevada, excepting those of the Comstock.

BRADLEY DEFEATED IN STOREY.

The Democratic primaries in Virginia were very exciting yesterday. The main issue seems to have been between the Third Term and Anti-Third Term factions. Bradley's side was defeated and Fox carried the primaries. Hagerman had no ticket in the field.

NEWS OF THE MORNING.

Winnemucca subscribed \$210 for the yellow fever sufferers.

Kearney is in New York and is out in an open letter to the Workingmen.

The yellow fever cursed cities still report the disease increasing and the suffering worse.

Kate Lorence was defeated in her 50-mile walk with John Oddy in Virginia. A put-up job is intimated.

Gold was only 100 1/4 in New York yesterday, being the lowest price since the suspension of specie payments.

THE SOUTHERN SCOURGE.

No epidemic is more to be dreaded, with the exception perhaps of Asiatic cholera, than that known as yellow fever. Whoever has read the descriptions of Dr. Rush, of the scenes presented during its prevalence in Philadelphia in 1793, can form no idea of its terrible havoc. The recent reports from Grenada, Mississippi, show the most fearful results. But the severity of the disease only adds to the importance of better understanding its causes and prevention, a subject which has formerly given rise to much controversy, and many theories which have been closely contested. Without enlarging upon these, the great weight of authority now in favor of the opinion that the disease originates from a poison generated by the putrefactive fermentation of decayed animal or vegetable matter, or both. In other words, it arises from filth, usually occurring in the Summer, which is the season of putrefaction. When the putrefactive materials are destroyed in any manner, by frost, fire or water, the disease is at once arrested. Some of the infected districts of New Orleans are reported as indescribably filthy. Among all the malignant diseases and fevers of whatever name, contagious or otherwise, eruptive or typhoid, there is an analogy, a similarity in their symptoms and progress, which shows that they may originate in similar sources having something like a common origin, and that they are in a great degree under human control. They may be ranked among the preventible diseases. The epithet yellow is only incidental and is only to be observed in the worst cases. In yellow fever, after the fifth or sixth day, the symptoms assume a typhoid character, and it is then found capable of communicating that form of disease, thus showing the close relation between them. The occurrence of yellow fever is a lesson for all, the North as well as South. These poisons in the air are no respecters of persons, and they are generated anywhere when the conditions are favorable. Differences in climate and location may modify their effects somewhat, but their general character and mode of prevention are the same everywhere, and the latter consists mainly in adopting the strictest sanitary measures. Our own communities are subject to a variety of epidemic and contagious diseases, which frequently appear and often prove fatal. So exuberant has been the vegetable growth this season that an unusual amount of decaying matter will require to be disposed of. Cleanliness is the only specific, the primal rule, without which health and pure air cannot be secured. Cleanliness of person, cleanliness throughout the house, in all the domestic operations and outside surroundings. This is the first care, and only safeguard; yet how grossly it is neglected, is evident to the most careless observer.

[From the Gold Hill News.]

While it is very important, in many respects, that the Republicans of Nevada should elect their candidate for Governor this Fall, the legislative ticket is even more important. A successor to John P. Jones in the United States Senate is to be appointed by the Legislature which we are to elect next November. If Nevada does her simple duty, Mr. Jones, the Father of the Silver Bill, will be his own successor. His labors in defense of the interests of Nevada are but half accomplished, and to send a new man to take up the work where he has left it, would be simply to risk the loss of what has already been gained. Should Republicans fail to do their duty and do not return Mr. Jones to his seat for another six years, their action would be construed east of the Rocky Mountains as a disapproval of the Silver bill for which he fought so well and vigorously, and the gold rings of the East would take heart and hope for a new crusade against the main product of our State. We must show no such signs of weakness as that; we must give no such aid and comfort to the enemy.

We believe that the great body of the Republican party is determined to send Senator Jones back to Washington for another six years term. It has been hinted for a few days past that there are men within our ranks—men who aspire to be leaders among Republicans—who are laying plans to oust Mr. Jones from his seat and instate another Republican. The recent attempt to have but one primary election for both the county and State conventions is said to have been a movement against Senator Jones. If it was, it has happily failed, and our county and State conventions will not be mixed up by the holding of general primaries, as was proposed. If such a plot as the one hinted at is really in existence, we should say to the men concerned—and they are well known—that unless they are prepared to thoroughly worst their party in the coming election, they will act wisely in giving up, once and for all, this anti-Jones movement. The people of this State are in favor of Jones. The Republican party, almost to a man, is pledged to return Jones, and any independent movement within our ranks, while it will have not the slightest chance of being crowned with success, will so thoroughly disgust and alarm good, honest Republicans that the party will march to assured defeat this Fall.

We throw out the above suggestions simply as a warning to Republicans, if such there be, who are just now engaged in bearing Jones' stock. It is a stock that will not be pushed down, and any open attempt to depreciate it would meet with such a stirring rebuke that the operators would sink back from the indignant party abashed. Secret workings to that end must be prevented by our County Conventions. Let them understand at the outset that no Senator and no Assemblyman who is not known to be in favor of John P. Jones for the United States Senate will stand the faintest show of being elected on the Republican ticket. If men who are pronounced in their advocacy of Jones are nominated all over the State, we shall be surprised at the popular majorities which they will receive. The name of Jones alone is a power of strength in our party. Let us see to it that it is borne aloft in the front ranks of our advancing columns.

If the conspiracy against Jones has really any strength, which we sincerely doubt, it will show its head at the county primaries. We therefore warn Republican voters to scan well the tickets presented to them for election. Be sure that you are not voting for a slate, made up to pack the convention with delegates in the interest of any other than Jones. With a convention which represents the interests of the people, we shall have nominees for the Assembly and Senate whom we can vote for in the firm faith that they will vote to re-elect Jones. And only such nominees can be elected on the Republican ticket. If we wish to gain a legislative victory we must be honest, there must be no trickery. The issue is made. It is Jones and an overwhelming triumph at the polls, or treachery to Jones and an overwhelming defeat.

CONFEDERATE DISLOYALTY TO THE CONSTITUTION, THE UNION, AND THE LAWS.

Says the Okolona (Miss.) States: A man owes his paramount allegiance to the government of the State of which he is a citizen. The fact that he may have taken the oath of allegiance to the United States Government does not make the slightest difference. No man can remain a citizen of a State and at the same time relieve himself of the burdens of citizenship imposed by his sovereign mistress.

Of course, with the "chivalry" an oath has little weight against its hatred to the nation, its unconquerable hostility to the Constitution and the laws. The oath falls in every conflict with the State. The States adds, with malignant fury: The mean triumph of incipient Radicalism at Memphis is due to the defense of universal suffrage by the Democrats. Hence the "unconstitutional amendments," guaranteeing universal suffrage, must be repealed or violated; trodden under foot by the Ku-Klux or White League; suppressed in blood under the Mississippi shot-gun policy.

[From the S. F. Bulletin.]

Whatever may be the outcome of the present excitement in Sierra Nevada stock, any items concerning the history of the mine will be of interest just now. We have been asked a variety of questions, and will answer them as far as possible. The claim is one of the oldest on the Comstock lode, the location having been made June 22, 1859. Of the early history of the claim we know but little. On the 10th of August, 1868, the claim was owned and under the control of the Sierra Nevada Mining Company, and consisted of 2,640 ft. Some mining authorities give the Company 3,300. In 1867 and 1868 there were 3,000 shares. In July, 1869, the number was increased to 15,000 shares. In May, 1871, another 5,000 shares were added. In July, 1874, the stock was further increased from 20,000 to 100,000 shares, which has been the number ever since. The location is over one-third of a mile north of the northerly line of the California mine. Whatever may be the exact number of feet covered, the mine contains more ground than is represented by the California and Consolidated Virginia, or the Ophir, Mexican and Union Consolidated, which lie between it and the bonanza mines. From a recent statement by the President we learn that over \$200,000 has been expended in erecting hoisting works and a quartz mill. The mine has paid some dividends. The first was disbursed in June, 1869, and the last in January, 1871. The amounts are as follows:

| Date. | Per Share. | Amount. |
|---------------------|------------|-----------|
| June 9, 1869..... | 50 | \$ 7,500 |
| July..... | 50 | 7,500 |
| August..... | 50 | 7,500 |
| September..... | 50 | 7,500 |
| October..... | 50 | 7,500 |
| November..... | 50 | 7,500 |
| December, 1870..... | 50 | 7,500 |
| January, 1871..... | 50 | 7,500 |
| February..... | 1 00 | 15,000 |
| March, 1871..... | 1 00 | 20,000 |
| Total..... | \$6 50 | \$102,500 |

There have been 55 assessments in all, amounting to \$2,050,000, of which \$300,000 became delinquent in 1877, and \$500,000 in 1876. The last assessment of \$100,000 was levied July 31, 1878, and became delinquent in the Board on the 31st of August, and will become delinquent at the office to-morrow. The sale day is fixed for the 25th inst. During the payment of dividends in 1869, the stock sold at from \$5 to \$17 per share, on the basis of 3,000 shares in the mine. The highest price paid for the stock up to 1872 was on the 4th of May, 1869. At that time the stock was reported to be concentrated with a large number of "shorts" out, and the price was carried up to \$200 per share, or at the rate of \$600,000 for the whole mine. In October, 1867, there were sales made as low as 5c per share, or \$150. There is an immense gulf between that figure and the present selling prices. The highest price paid for the stock during the period that there was 20,000 shares in the mine was in April, 1872, namely, \$54 per share, or at the rate of \$1,080,000 for the whole mine. In July, 1874, the stock was increased to 100,000 shares. The new stock was placed upon the market at \$4 75, or at the rate of \$475,000 for the mine. In September following the price was raised to \$10 50; in November to \$13 50, and in December to \$28. That was an exciting period in the history of the Comstock market. It will be remembered that the bonanza stocks culminated in the following month. On the 7th of January, 1875, Sierra Nevada sold at \$27 per share, which was the highest figure during that year. For the most part of the time it sold under \$20, but stiffened up a little at the close. In January, 1875, it sold at from \$20 to \$28, and again in the following March at equally favorable figures. For the remainder of 1876 the price generally varied from \$10 to \$20. In 1877 the price never for even once reached \$10, and in May of that year it was as low as 85c per share. Since January 1st the highest and lowest rates have been as follows:

| | Highest. | Lowest. |
|-------------------------|------------|----------|

The above are Board prices, as are all the quotations we have given concerning this mine. Outside of the Board it is reported to have touched \$90 last Thursday, and to have dropped to \$45 on last Saturday. The rates yesterday were \$70 @ \$82, closing last evening at \$75. Assorted assays from the crosscut taken out yesterday afternoon show the following averages: No. 1, \$359; No. 2, \$455; No. 3, \$408; No. 4, \$1,081 per ton. The last was acknowledged to be a picked sample. At the time these samples were removed, the crosscut was eight feet in ore. This morning the stock sold at \$83 @ \$95 per share.

CAUSE FOR REMOING.—Only four months more and then resumption of specie payments. The country will then have a sound, non-fluctuating mixed currency of coin, national bank notes, and greenbacks, in nearly equal parts, and convertible at par, paper into coin or coin into paper, and all guaranteed by the National Government. No country can then claim to possess a superior monetary system to that of our own country.
